integrating and interfacing with APIs to enable communication between different software systems and services

Misikir Delelew

Dedicated and results-driven Computer Science professional with a Bachelor's degree from the esteemed University of Gondar. Over the years, I've garnered comprehensive experience across various facets of IT. I began my career as a Computer Programmer at the Ethiopian Institute of Agricultural Research, where I designed and implemented software solutions to streamline agricultural processes, contributing to the modernization of the sector. Subsequently, I advanced to roles such as Senior Database Administrator at the Ethiopian Commodity Exchange and currently serve as a Senior System Developer and Database Administrator at the CSC Integrated Civil Service Management Information System Project Office. Throughout my career, I've demonstrated a keen aptitude for problem-solving, innovation, and collaboration, earning accolades for my contributions to organizational success.

Professional experience

1. Senior System Developer & Database Administrator, CSC Integrated Civil Service Management Information System Project Office

January 2018 - Present

Designed, developed, and maintained integrated civil service management information systems using modern technologies and best practices.

- Managed database systems to support the storage, retrieval, and manipulation of large datasets for civil service management.
- Collaborated with stakeholders to gather requirements and translate them into technical specifications for system development.
- Using recent technologies C# ASP.net MVC, Python-Django, React, Vue
- Provided technical leadership and mentorship to junior team members, fostering a culture of innovation and continuous improvement.

2. Senior Database Administrator, Ethiopian Commodity Exchange

January 20XX - January 20XX

- Managed and optimized database systems to ensure data integrity, security, and performance.
- Implemented backup and recovery strategies to safeguard critical data and minimize downtime.
- Monitored database performance and conducted performance tuning to improve system efficiency.
- Developed and maintained database documentation, including schema designs, data dictionaries, and standard operating procedures.

Certifications

- SQL Server Database Administration
- Angular JS
- SQL Server Database Performance tuning
- Querying Data with Transact-SQL
- ASP.net MVC
- Android mobile app development

3. **Computer Programmer, Ethiopian Institute of Agricultural Research,**
- Developed and maintained software applications to enhance agricultural research and data analysis.
 - Collaborated with cross-functional teams to gather requirements and implement software solutions tailored to specific research projects.
 - Conducted testing and debugging to ensure the functionality and reliability of software applications.
 - Provided technical support and training to end-users on software usage and troubleshooting.

Master's in human resources management, University of Paris, Paris, France
